The company plans to import analytical reference standards for distribution to its

customers for research and analytical purposes. Placement of these drug codes onto the

company's registration does not translate into automatic approval of subsequent permit

applications to import controlled substances. Approval of permit applications will occur

only when the registrant's business activity is consistent with what is authorized under

21 U.S.C. 952(a)(2). Authorization will not extend to the import of FDA approved or

non-approved finished dosage forms for commercial sale.

Dated: June 25, 2015.

Joseph T. Rannazzisi,

Deputy Assistant Administrator.
